

# 2019 ALBERTA WETLAND COURSES

**Wetlands** are some of the most productive and ecologically important ecosystems in the world. With increasing rates of development impacting wetlands across the country, we are faced with making difficult decisions regarding the fate of these ecosystems. We need to better understand wetland functions, values and the ecological services they offer.

**Aquality Environmental Consulting Ltd.** is pleased to offer our **“Alberta Wetlands: From Classification to Policy”** classroom course. This comprehensive course is designed to help consultants, industry professionals, resource managers, not-for-profit organizations, and government regulators understand the theoretical component used in wetland assessments.

Aquality is also pleased to release their Field Guide **“Common Mineral Wetland Plants of Alberta”**.

This guide may be purchased on it's own, and is recommended for the course.

## *Course Dates and Locations*

October 1-2, 2019 in Edmonton, AB  
 November 5-6, 2019 in Calgary, AB  
 December 3-4, 2019 in Edmonton, AB  
 February 25-26, 2020 in Edmonton, AB  
 March 10-11, 2020 in Calgary, AB  
 April 7-8, 2020 in Edmonton, AB  
 April 28-29, 2020 in Calgary, AB

### *Cost*

\$599 + GST

# 2019 ALBERTA WETLAND COURSES

The **Wetland Course** provides the quintessential information and tools needed when working with Alberta wetlands in any capacity. The classroom portion of the course will span 2 full days from 9:00 a.m. until 4:30 p.m.

**Day 1** will be an overview of wetland theory, classification, riparian function and up-to-date Policies affecting Wetlands in Alberta;

**Day 2** focuses on wetland functional assessments and will provide an introduction to some of the tools used for assessing wetland functions and benefits, including the new Alberta Wetland Rapid Evaluation Tool (ABWRET).
